CORE SKILLS

Front-End Development

- Semantic HTML5
- CSS3 / SCSS (BEM, modular structure)
- Responsive & adaptive layouts (Flexbox, Grid)
- JavaScript (ES6+), DOM manipulation
- TypeScript (basic level)

UI & Code Architecture

- Component-based thinking
- Reusable mixins & patterns
- Clean project structure Predictable UI behavior

Tools & Workflow

- Figma → HTML/CSS/JS
- GitHub
- VS Code

SOFT SKILLS

- System thinking
- Attention to detail
- Structured, methodical approach
- Problem-solving
- Reliability & responsibility
- Clear communication

SUMMARY

I work with clean, semantic HTML and structured SCSS to build responsive, visually consistent interfaces. I enjoy creating interactive UI components and refining details to improve usability. My approach is systematic, detail-oriented, and focused on high-quality front-end results.

PROJECT EXPERIENCE

Arik — Designer Portfolio (Multi-Page Website)

- Built a responsive multi-page layout from Figma
- Added smooth UI animations and layered visual effects
- Structured SCSS using BEM and modular architecture

Coral — HTML/CSS Project

- Implemented theme switching with smooth UI transitions
- Developed a custom JS slider
- Built a clean, lightweight UI with architectural SCSS

UI Clone Projects (Practice & Architecture)

- LinkedIn Clone
- VidTube Clone
- Netflix Clone
- Socialbook Clone
- Staybnb Clone

EDUCATION

Front-End / WEBUI (HTML, CSS, JavaScript)
 Freelancer Life Style, 2024
JavaScript Course
 Freelancer Life Style, 2025
TypeScript Course
 Freelancer Life Style, 2025
